PROFILE

I'm a Web Designer for over 10 years creating Layouts with Photoshop, Illustrator, **HTML5/CSS3**, **Javascript (jQuery)** and Bootstrap. For projects of Institutional Websites, Online Catalogs, and Small Virtual Stores, I use Wordpress with creation of simple themes and implementation of layout in ready themes.

In order to become a **Fullstack Javascript Developer**, I have been updating on the new features of **ECMASCRIPT** to deepen my knowledge and make me, master in technologies like: Javascript (Vanilla), Node, Vue, React and React Native form mobile apps. In addition learn all ecosystems that involve these technologies, such as MongoDB, Jenkins, Docker, Webpack, etc.
